PERSONAL PROFILE

Computer Science undergraduate with hands-on experience in software development, networking, and Linux administration. Proficient in Python, Java, SQL, JavaScript, and web technologies, with practical experience designing networks, deploying virtualised systems, and developing accessible web applications. Strong problem-solving skills, effective team collaborator, and highly motivated to contribute to IT support, software engineering, or network engineering roles.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL, JavaScript, HTML, CSS, C, C++, Object-Oriented Programming (OOP), Data Structures & Algorithms.
- **Networking & Systems:** Linux Administration, Cisco Packet Tracer, IP Addressing, Subnetting, VLANs, DHCP, IPv6, Network Design, Routing & Switching Fundamentals, TCP/IP
- **Tools & Platforms:** Microsoft Word, Excel, PowerPoint, Django, Git, GitHub, VMware, Logisim, VS Code, PostgreSQL, SQLite, Linux CLI
- **Design & Media:** Adobe Photoshop, Adobe Illustrator, CorelDraw, Canva, Lightroom, Figma, UI/UX Design Principles, Visual Branding, Photo Retouching, Social Media Content Creation.

EDUCATION

BSc (Hons) Computer Science | University of Hertfordshire: September 2022 – Present

Expected Graduation (2026)

Secondary Education | Student Foundation Career College: *September 2015 – September 2019*

WORK EXPERIENCE

Linux Administration & Networking – University of Hertfordshire: January 2025 – March 2025

- Designed and implemented a multi-site network using Cisco Packet Tracer for a technology consulting firm with offices in London, Manchester, and Leeds.
- Configured IP addressing, subnetting, VLANs, DHCP, and IPv6 to ensure secure and efficient network communication.
- Deployed a Linux server on VMware and implemented security practices.

POW Team Member (Chef) – Greene King, England: *May 2024 – Present*

- Prepared food in compliance with health and safety standards while maintaining efficiency in a fast-paced environment.
- Conducted stock checks, placed orders, and distributed tasks efficiently.
- Trained new staff members.

Care Assistance, Phoenix Healthcare, England: *January 2023 – November 2023*

- Maintaining residents' hygiene, safety, and overall well-being.
- Ensuring a safe and protective environment by adhering to health and safety regulations.
- Assisting clients with feeding, bathing, and dressing Keeping rooms clean, tidy, and organized.
- Using aids to support clients with limited mobility or physical/learning difficulties.
- Following infection control procedures to maintain a clean and safe working area.

Customer Service Assistant – Isco Ventures, Nigeria: *April 2021 – August 2022*

- Supervised and coordinated sales staff, managing sales worth over ₦50,000,000.
- Frequently converting inquiries into sales, improving negotiation skills.
- Resolved customer complaints efficiently, improving customer satisfaction and repeat sales.

PROJECTS & ACHIEVEMENTS

- **Web Accessibility & Usability Profile Site** (*Dec 2024*)
 - Built a personal portfolio site with HTML, CSS, and JavaScript (no templates).
 - Conducted a heuristic evaluation to improve usability.
- **Team Software Project – Code Grafters** (*Python-based Educational Platform, Nov 2024*)
 - Developed a website with interactive coding exercises, video tutorials, and quizzes.
 - Implemented user authentication, accessibility features, and social sharing.

KEY STRENGTHS

- Strong analytical and problem-solving skills
- Excellent communication and teamwork abilities
- Adaptable, fast learner with attention to detail
- Creative approach to technical and design challenges

HOBBIES & INTERESTS

- Extra Mile Thinking
- Software development, Analysing big data's, coding and debugging
- Networking and system configuration
- Graphic design and video editing
